6 Long Essay : (1 out of 2) 1×10=10

Make a précis (1/3) of the given paragraph.

It is physically impossible for a well-educated, intellectual, or brave man to make money the chief object of his thoughts just as it is for him to make his dinner the principal object of them. All healthy people like their dinners, but their dinner is not the main object of their lives. So all healthy minded people like making money ought to like it and enjoy the sensation of winning it; it is something better than money. A good soldier, for instance., mainly wishes to do his fighting well. He is glad of his pay - very properly so and ,justly grumbles when you keep him ten years without it - till, his main mission of life is to win battles, not to be paid for winning them. So of clergymen. The clergyman's object is essentially baptize and preach not to be paid for preaching. So of doctors. They like fees no doubt-ought to like them; yet if they are brave and well-educated the entire object to their lives is not fees. They on the whole, desire to cure the sick, and if they are good doctors and the choice were fairly to them, would rather cure their patient and lose their fee than kill him and get it. And so with all the other brave and rightly trained men: their work is first, their fee second-very important always; but still second.

Comprehension-read the passage carefully and answers  $5 \times 2 = 10$  briefly :

The report has highlighted the vulnerability of boys and girls to various forms of physical, sexual and emotional abuse. Taking all the 13 states together more boys reported physical abuse than girls, though the ratio of girls physically abused was higher in Kerala (55.61%) and Gujarat (54.61%). Incidentally, the highest percentage of abuse among boys was reported from Delhi (62.2%) followed by Madhya Pradesh (59.75%) and Maharashtra (55.75%). The situation of children in institutions, shelters, observation homes and other places created for the protection of children is alarming. Yet, what most of us find difficult to accept is that over 53 percent of children reported are being abused at home and in their families.

Answer all the questions :

1. Which were the two states where the abuse of girls was quite high?
2. Mention two startling findings of the report.
3. Mention two forms of emotional abuse.
4. Mention two measures to reduce the problem of child trafficking.
5. Name three states where sexual abuse of children is quite high.
